DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

3. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Hummel et al.

With respect to claim 1, Hummel et al. disclose a wheel for motor vehicles in Figures 1-4 comprising a wheel hub, a rim, and spokes by which the wheel hub and the rim are connected with one another, wherein, the first areas connected with the wheel hub, the spokes have solid-sections near reference character 1 in Figure 2 and, in second areas connected with the rim, the spokes have V-shaped cross-sections as shown in Figure 3.

With respect to claim 2, Hummel et al. disclose a wheel wherein the spokes are arranged to correspond with openings for receiving fastening bolts which are provided in the wheel hub.

Allowable Subject Matter

4. Claims 3-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gabath, Yoshida, Stach (U.S. Patent No. 6,231,129), Pfeiffer, and Stach (U.S. Patent No. 5,538,329) are cited to show wheels with spokes, rims, and hubs.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Long B. Nguyen whose telephone number is (703) 305-5201 and fax number is (703) 308-3297.
